

Team Leader/Teacher Master Sheet

FOLLOW THESE EASY STEPS TO GET A FAST START:

1. Sign up your team members.

- Write your name on the Master Sheet.
- Use this pre-assigned User ID and Password when you log on at www.firstinmath.com.
- Write the first player's name in the space under 01(team name).
- Peel off the label next to her name on the Master Sheet and stick it on the back of the membership card.
- Write that player's name on the front of a membership card and give it to the player. She can now log on to www.firstinmath.com and begin to play!
- Repeat c) to e) above for all your students so they can begin right away.

Team Leader → Mrs. M. Richards
 User I.D.: 00venus1ny
 Password: hound

Check off these two boxes as you give Goal 1000 and Goal 2000 Rec

3 Getting Started for TEACHERS

Introduction

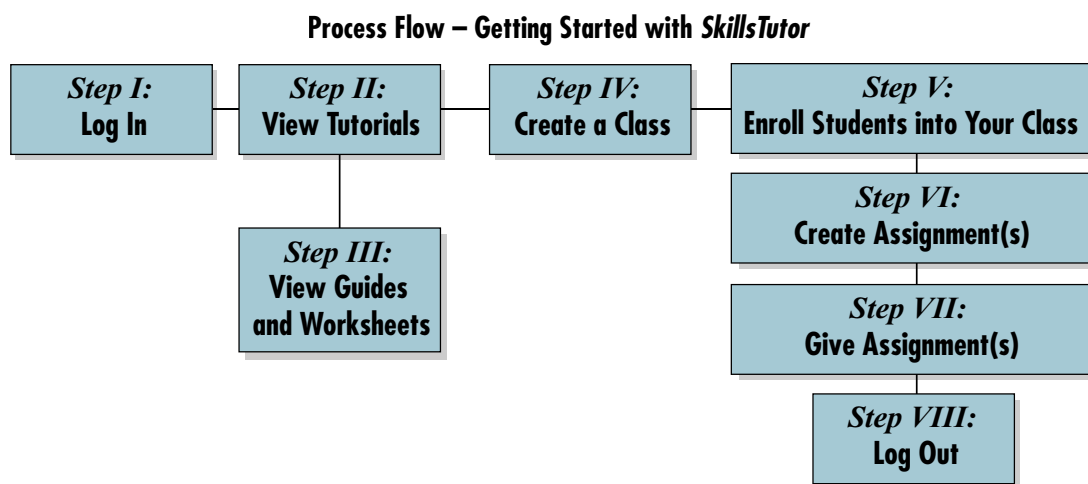

SkillsTutor is a comprehensive resource for diagnosing and meeting the needs of your students. It gives students a guided review of basic skills covered by national standardized tests such as the California Achievement Tests (CAT), the Comprehensive Tests of Basic Skills (CTBS), the Iowa Tests of Basic Skills (ITBS), and the Stanford Achievement Test (SAT). It also provides students with important practice for the standardized tests by presenting questions in the same format used by national tests in a variety of subject areas.

The three principal activities in the teacher program are setting up classes, creating assignments, and viewing/printing reports. This document provides a quick overview of these activities to help you get started.

Classroom Guide (online): See page 3-4 on viewing online documentation. Each Classroom guide contains Lesson Summaries and assignment sheets. Many Classroom Guides also contain worksheets to support lessons within the module.

About Getting Started for Teachers

The information on subsequent pages of this section is organized according to the process defined in the diagram shown below:

We recommend that you go through each of the steps identified in this process to successfully get started with *SkillsTutor*.
